- **V.State Impacts**

#### Marijuana Landscape in the United States 2010

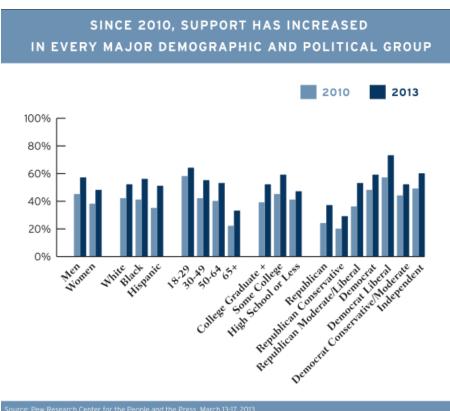

The legalization of marijuana is rapidly spreading across the United States. <u>18 states</u> (plus Washington D.C.) provide for legal medical marijuana, <u>2 states</u> provide for legal recreational adult marijuana (Colorado and Washington), and <u>6 states</u> have pending legislation (Illinois, Minnesota, New Hampshire, New York, Ohio and Pennsylvania).

## Public Opinion is Changing

Since 2010, support for legalization has increased in every major demographic and political group.

- •48% of Americans say they have tried marijuana and 12% of all adults (and 27% of those under 30 years old) say they have used marijuana in the past year.
- •52% of Americans think marijuana should be legal.
- •60% of Americans think the federal government should not enforce its prohibition in states that permit marijuana use and 72% agreed that federal enforcement of marijuana laws is not worth the cost.

#### **Trends**

- Legal marijuana is currently a \$3.0 Billion industry in the United States and is projected to double in size by 2018.
- The total potential nationwide legal marijuana market is estimated to be \$35-45 Billion (based on actual nationwide usage).
- Colorado is the first legal, regulated and taxed adult (21+) recreational marijuana market in the U.S., retail sales commenced January 1, 2014; the total legal cannabis market in Colorado is estimated to be \$1+ Billion in 2014.
- Coffee and Tea sales are approximately \$11 Billion annually
- US Beer Industry sales approximately \$99 Billion Annually. (brewersassociation.org)

Where are we today? 4 Years later?

## **Three Approaches in United States**

- 1.Medical marijuana
- 2.Adult Use Marijuana
- 3.Hemp Low THC (.3%)

Passeouries voie)	. Summary Chart: 23 states and DC have enacted laws to legalize medical marijuana

## **Cultivation Facility in Colorado**

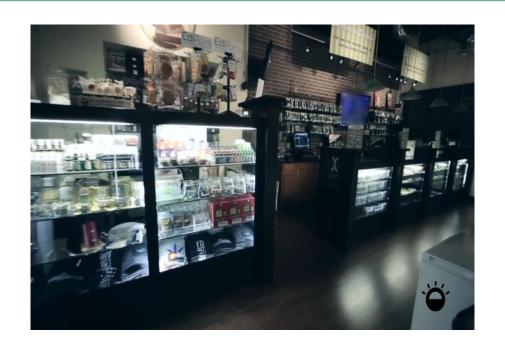

### Colorado Medical Marijuana Retail Outlet (Dispensary)

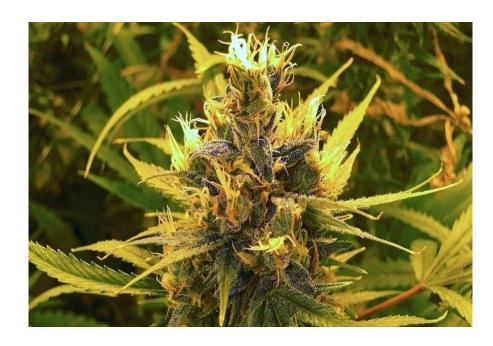

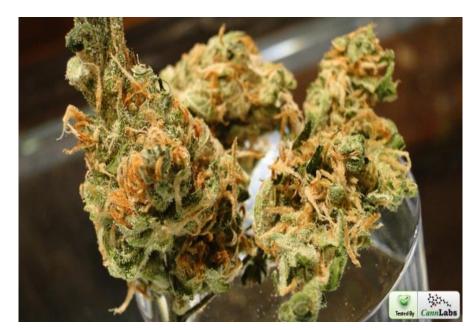

## Marijuana (Cannabis) Plant

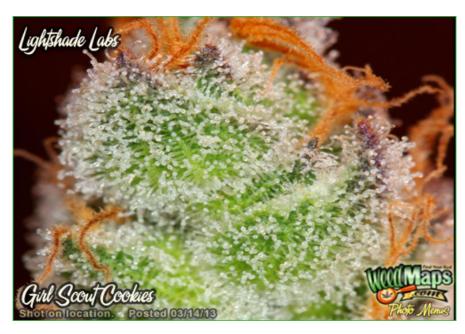

#### Marijuana Magnified (Oils, trichomes, turpines, cannabinoids)

### What Has Worked?

#### **Three Common Elements for Success**

- 1. Communicate with the Industry (Stakeholders)
  - They are not new to this.
  - Want reasonable statutes, regulations and reasonable oversight.
  - Rule Making, Workgroups, committees, sub-committees, etc.
  - Black Market?

#### **Three Common Elements for Success**

2. Inter-Agency Cooperation

Public Safety (Diversion, Underage access)

Health Agency - BME (MD'S - Conf. Patient Registry)

Revenue (Taxation, Enforcement)

Agriculture (farming, pesticides, Molds, Fed Farm Act)

**Education (Universities-Research and Analysis)** 

ALL HAVE COMMON OVERSIGHT

3. Reasonable statutes and regulations.

### **Successful Regulatory Elements**

**Limit Number of Licenses to ensure Control - Access** 

**Background Investigation (Owners, Managers, Employees-Contractors)** 

**Drug Convictions? Felony? "Good Moral Character"** 

Taxes and All Other Government Obligations Paid

(State Cash Fund)

**Limited Access Areas** 

**Security Systems** 

**Video Systems** 

Seed to Sale Tracking System (Agrisoftdg.com)

3 Tier System/Vertical Integration

**Transportation - Travel Manifest** 

**Criminal-Administrative Sanctions (BOTH)** 

Criminal Court. Admin. Fines, Suspension 6 months, or Revocation

## Brookings Institution on Colorado's Legalization of Marijuana: 'Resounding Success'

Friday, 08 August 2014

**Washington, D.C.:** The Brookings Institution has issued a report entitled 'Colorado's Rollout of Legal Marijuana is Succeeding', analyzing the first six months of Colorado's legalized cannabis commerce and taxation policies, which voters approved by ballot initiative in November 2012.

Author John Hudak calls the implementation of the new Colorado law "a resounding success." He continues, "My research shows that regardless of the merits of the policy itself, Colorado has created a smart regulatory system that balances safety and security with access to legal marijuana."

### **State Impacts**

# Colorado teen marijuana use continues to decrease post legalization

For immediate release: August 7, 2014

Denver: The Colorado Department of Public Health and Environment (CDPHE) released new data today showing that teen marijuana use has continued to decrease post legalization.

The newly released CDPHE data shows that from 2011 to 2013 the rate of current marijuana use among Colorado high school students has decreased from 22% to 20%; During the same time, CDC data shows that national teen marijuana usage remained virtually unchanged (2011: 23.1, 2013: 23.4) <a href="CDC Data">CDC Data</a>. The CDPHE survey also shows that lifetime use by high school students has declined from 39 percent to 37 percent during the same two years.

Colorado is seeing record tourism, record real estate, and increases in tax revenue and jobs. Further, Colorado voters rank legalization a success.

#### 1. Record Tourism

- 1. "2013/14 ski season noted as best year for Colorado," Colorado Ski Country USA, 6-12-14.
- 2. "Spending sends Colorado resort towns toward record setting tourism year," by Jason Blevins, The Denver Post, 5/25/14.
- 3. "Denver tourists spend a record \$4.1 billion in 2013," by Jason Blevins, The Denver Post, 6/18/14.

#### 2. Strong Economic Indicators

- 1. "Colorado jobless rate drops to 6%, labor shortages emerge in trades," by Howard Pankratz, Denver Post, 5-16-14.
- 2. "Metro Denver Saw Economic Development Payoff in 2013," by Aldo Svaldi, Denver Post, 1-21-14.
  - 1. "All of metro Denver's major industry groups, or 'clusters,' managed to add jobs last year, and the area snagged a larger-than-expected number of corporate headquarters. 'We are now a magnet for corporate headquarters,' said Tom Clark, CEO of the Metro Denver Economic Development Corp., in an outlook provided to the City Club of Denver on Tuesday. The metro area landed 10 corporate headquarters in 2013, up from the average of six to eight in recent years."
- 3. "Colorado recreational marijuana sales, taxes boomed in April," by John Ingold, Denver Post, 6-9-14.
- 4. Actual marijuana sales and excise tax numbers for April, published June 2014.

#### 3. Record Real Estate:

- 1. "Denver Booms as Outdoors, Ski Slopes trump prices, bustle of cities on coast," by Nadja Brandt, *Bloomberg*, Denver Post, 12-31-13.
  - 1. "Spending on construction of new commercial buildings this year is estimated at about \$2.55 billion, up 26 percent from 2012 and the most in at least two decades, according to the city Community Planning & Development Department.
- 2. "Colorado Pot Laws Help Mile-High City's Appetite for Real Estate to Grow Even Higher," by James Higdon, CNN, 12-13-2013.
- 3. <u>Denver Ranks as a Top 'Market to Watch' for Commercial Real Estate</u>," by Dennis Huspeni, <u>Denver Business Journal</u>, 1-17-14.

#### What Doesn't work

- No Regulatory Framework
- •Caregivers allowed to coexist <u>and produce</u>

  Feeds black market
- Decriminalization Only-Not allowing Production
   Expectations to go to other states
   State and Federal Violations
- •Over Regulation and Higher Taxes
  Increases Costs
  Feeds Black market

#### Summary

- I.National Landscape
